What is TEAM JERICHO?

Team Jericho is a group of leaders in high school ministry who are united and dedicated to breaking down the walls in HSM through courage, prayer and action in our lobby. Team Jericho is a group of students who are the “hosts” of the ministry. This team is responsible for welcoming students in the HSM lobby, learning to serve behind the scenes, and leading games and announcements. All of the tasks, responsibilities and meetings are built for to develop leaders along the way!

Who are we looking for?

The goal of this team is to be a balanced mix of personalities, talents, interests, core groups, grades, and genders. If you are outgoing or shy, this is a team for you.

Humble Leaders:

“Humility doesn't mean weakness. These kinds of leaders are strong--but they're secure enough to see beyond themselves. They're not worried about their image. They know their value, but it isn't about them. It's about a cause much bigger than them. Humility doesn't mean leaders think less of themselves. It means they think of themselves less. And this...makes others think more of them” (Elmore 27)
